### **Part III DETAILED ACTION**

1. The request filed on 6-30-98 for a Continued Prosecution Application (CPA) under 37 CFR 1.53(d) based on parent Application No. 08/736,896 is acceptable and a CPA has been established. An action on the CPA follows.

#### *Claim Rejections - 35 USC § 103*

2. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

3. Claims 1, 3 and 4 are rejected under 35 U.S.C. 103(a) as being unpatentable over Heinke et al. (German Patent 3,203,410) in view of Mariant et al. (US Patent 5,639,277). Heinke et al. disclose an coil (1) having proximal and distal ends that are radially inward relative the center section. However, Heinke et al. do not disclose the detachable ends. Mariant et al. teach of this element (see figure 14) in the same field of endedavor for the purpose of allowing proper placement of the coil. It would have been obvious to one skilled in the art at the time of the invention to have placed the attachment means taught by Mariant et al. onto the Heinke et al. device in order to allow proper and controlled placement of the coil.

*Response to Arguments*

4. Applicant's arguments with respect to claims 1, 3 and 4 have been considered but are moot in view of the new ground(s) of rejection.

*Conclusion*

5. Any inquiry concerning this communication or earlier communications from the examiner should be directed to W. Lewis whose telephone number is (703) 308-0060.
